SHAPE THE FUTURE OF JAKARTA EE ™

THE FUTURE OF CLOUD NATIVE JAVA

For many years, Java EE has been a major platform for mission-critical enterprise applications. In order to accelerate business application development for a cloud-native world, leading software vendors collaborated to move Java EE technologies to the Eclipse Foundation where they will evolve under the Jakarta EE brand.

JAKARTA EE

JOIN THE JAKARTA EE WORKING GROUP

The Jakarta EE platform will evolve rapidly to drive cloud-native, mission-critical applications and build upon the decades of experience of real world deployments and developers. By joining the Jakarta EE Working Group, you can participate in an open process to shape the future of Cloud Native Java.

JAKARTA EE WORKING GROUP FOUNDING MEMBERS

DOCDOKU digital enterprise applications   FUJITSU   Genuitec   IBM   IncQueryLabs Ltd

Lightbend   Microsoft   ORACLE®   payara   Pivotal®

redhat.   SAP   Tomitribe   vaadin}>   w:// webtide

KEY BENEFITS

- Play a role in defining Jakarta EE strategic themes and priorities
- Collaborate through professionally managed development initiatives

ABOUT THE ECLIPSE FOUNDATION

The Eclipse Foundation provides individuals and organizations with a commercially-focused environment for open source software innovation. The Foundation is home to the Eclipse IDE, Jakarta EE, and over 350 projects, including runtimes, tools and frameworks for the Internet of Things, automotive, geospatial, and more. We are a not-for-profit organization supported by over 275 corporate members. Learn more at eclipse.org.
